

# Paperless Medical Records

Archive Information, Eliminate Paper Storage, Maintain Compliancy  
And Save Up To 80% Over EMR!!!

Do you want to eliminate the endless wasted hours your office staff spend looking for, and through patient files for needed information and documentation? Are you hesitant to implement an Electronic Medical Records system? Electronic Content Management can *save you up to 80%* over EMR programs! Currently have an EMR system in place and would still like to be paperless and save money?

International Business Solutions Alliance will *increase* your practice *productivity*, *save you valuable time* and ultimately *save you money* by allowing you to quickly retrieve documents that need to be reviewed, printed or faxed. IBSA will also help you to ensure even greater patient privacy. By setting specific permissions on a document or document types, you give only those users who need or require access permission to view. IBSA also tracks who has viewed, modified or exported a document and on what date or dates. Do you have multiple practice locations? IBSA allows you to easily share documents with other employees across multiple practice locations. Scanning and storing files electronically will also help to ensure your documents are safe and backed-up, should you experience a fire or other disaster.

## Key features and benefits of IBSA include:

HIPAA compliant

Realized reduction in Labor costs for retrieval and refilling of medical records

Immediate access to images.

Bar-coding, for easy routing and filing of documents

Simple indexing so you can add or save a document quickly and efficiently

Easy-to-use full text search functionality, including "fuzzy" search logic

(Helps to find documents even when a word or words have been typed incorrectly)

Storage and Scan on demand in temperature controlled environment
